- The Board previously revised the Procedures for PoAs at its 47th meeting
- These revisions overhauled the framework rules for PoA and were based on stakeholder inputs
- Since the Board adopted these procedures the secretariat has received a number of requests for clarification and suggestions for improvement related to:
 - a) Changes in the coordinating/managing entity
 - b) Definitions of erroneous inclusion
 - c) Lack of clarity in the text
- Annex 5 and Annex 6 of the annotated agenda address these issues

- Many editorial clarifications
- Annex 6:
 - a) Paras 11 and 12 address the change of CME
 - b) Para 16 clarifies that the real case CPA submitted with the registration request is automatically included in the PoA upon registration.
 - c) Para 26 limits the period for requesting a review to the six months after the first issuance of CERs
- Annex 5:
 - a) Para 4 includes a definition of erroneous inclusion
