CDM-AP work plan for 2011

EB 60

Bangkok, Thailand, 11-15 April 2011

BACKGROUND

- The work plan for the Accreditation Panel 2011 was developed based on the CDM Management Plan 2011 approved by the Board
- The work plan includes the regular activities to be performed by the panel as well as new activities related to the objectives of the CDM Management Plan 2011
- The document provides details of the activities, expected outputs, and timelines, each being associated with related CDM Management Plan 2011 objective

KEY ELEMENTS

The AP work plan includes the following key elements, in addition to the regular activities of operating the CDM accreditation process:

1. **Implementation of the CDM accreditation standard v2.0**, including:
 - Revision of forms
 - Recommendations on requests for clarification
2. **Implementation of the CDM accreditation procedure v10.1**, including:
 - Review of practices of performance assessments and assessments of the non-central sites
 - Development of a guidance document to support consistency in decision-making by the CDM-AP

KEY ELEMENTS – cont.

3. Enhanced capacity and consistency of CDM-AT experts
 - Revised ToRs
 - Qualification, performance monitoring and evaluation
 - Review of effectiveness of trainings provided
 - Specialized on-line training
4. Direct interaction with DOE/AIE Forum
5. Review of requirements of annual activity reports by the DOEs
