

**Agenda item 3 c**  
Paragraph 47 of the annotated agenda

**A/R WG work plan for 2011**

**EB 60**

Bangkok, Thailand, 11-15 April 2011

## BACKGROUND

- The work plan for the Afforestation and Reforestation Working Group 2011 was developed based on the CDM Management Plan 2011 approved by the Board
- The work plan includes the regular activities to be performed by the working group as well as new activities related to the objectives of the CDM Management Plan 2011
- The document provides details of the activities, expected outputs and timelines, each being associated with related CDM Management Plan 2011 objective

## KEY ELEMENTS

The A/R WG work plan includes the following key elements, in addition to the regular activities performed according to its mandates:

### 1. Top-down development of new A/R methodologies

- Identification of A/R methodologies applicable in regions and land-use types that are under-represented in the CDM
- Development of methodologies
- Participation in relevant practitioner workshops on CDM methodologies

### 2. Improvement of existing A/R methodologies

- Assessment of A/R methodologies for potential improvement
- Revision of A/R methodologies
- Participation in relevant practitioner workshops on CDM methodologies
