Paragraph 2 d of the addendum to the annotated agenda

NM0337

DISTRIBUTION OF BIOMASS BASED STOVE AND/OR HEATER FOR HOUSEHOLD OR INSTITUTIONAL USE

CDM EB 62

Marrakesh, Morocco, 11-15 July 2011

New methodology “Distribution of biomass based stove and/or heater for household or institutional use”

BASELINE

CO₂

Fossil fuel

Existing stove or heater

Thermal application
(cooking, space heating)

PROJECT

CO₂

Biomass briquettes

New biomass based stove or heater

Thermal application
(cooking, space heating)

New methodology “Distribution of biomass based stove and/or heater for household or institutional use”

Applicability

- Distribution of biomass based stoves and/or heaters, AND supply of biomass briquettes (e.g. transportation infrastructure, briquetting factories etc.)
- Biomass penetration rate is $\leq 10\%$ in the project area;
- Capacity of stove or heater ≤ 150 kW thermal;

Baseline

- Existing fuel, stove or heater types – determined by a baseline survey in project area;
- Efficiency of stoves or heaters – determined by expert entity.
