

Agenda item 4.1. (a)

Paragraph 37 of the annotated agenda

Consolidated version of the PoA standards

CDM EB 65

Durban, South Africa, 21-25 November, 2011

Consolidated PoA Standard

- EB 63 adopted three PoA-related standards and requested consolidation to one PoA standard;
- Draft is in response to EB 63;
- No substantive changes were done while consolidating.

Consolidated PoA Standard- Minor editorial changes

#	EB63	Para No.	Text in EB63 versions	Text in the consolidated version
1	Additionality standard	11	The CME shall document the compliance with the eligibility criteria in each of the CPA design documents.	Deleted as the same text appeared elsewhere
2	Eligibility Criteria standard	13	13(j), reference to Microscale additionality Guideline and SSC Guidelines	Moved to footnote 6
3		13	13(c), footnote 3: See also paragraph 6 (m) of “Procedures for registration of a programme of activities as a single CDM project activity and issuance of CERs for a PoA”.	Footnote 4: See also relevant paragraphs of “Clean Development Mechanism Project Cycle Procedure”.
4		13	13 (k), reference to debundling guidelines	Moved to footnote 7
5		17	... if any significant problem is identified	Para 24: ... if an issue related to environment integrity is identified
6	Multi-meth standard	7	Reference to “Procedures for registration of a programme of activities as a single CDM project activity and issuance of CERs for a PoA”	Reference to “Glossary of CDM terms”

Consolidated version of PoA standard: Public comments

General

- Revise PoA-DD and CPA-DD templates on urgent basis

Specific comments

- Further clarify conditions to update of Eligibility Criteria;
- Apply SSC micro scale thresholds to independent units within a CPA and not to CPA in aggregate;
- Flexibility on the start date of POA;
- Register microscale POA DD directly and require only verification of CPA DD by a DOE skipping validation by DOE.
- Identification of CERs in the context of multi-country PoAs;
