

Agenda item 4.1

Paragraph 42 of the annotated agenda, Annex 11

Glossary of CDM Terms

CDM EB 65

Durban, South Africa, 20–25 November, 2011

Overview

1. Scope of the revision
2. Next steps
3. Expectation

1. Scope of the revision

- To ensure consistency in the use of common terms between Project standard (PS), Validation and verification standard (VVS), Project cycle procedure (PCP) and Glossary
- To remove “requirements” from the Glossary
 - Relevant requirements remain in, or move to, standards, procedures, methodologies, etc
- To improve readability, clarity and consistency by
 - Deleting multiple entries of the same term for different project types (definitions amended accordingly)
 - Creating a table format and deleting list of terms
 - General editorial amendments

2. Next steps

- Consider and incorporate stakeholders' input
- Further quality assurance review of definitions and consistency across standards, procedures, methodologies, tools, etc
- Final editorial review
- Present final version at EB 66

3. Expectation

- The Board may wish to approve the secretariat's approach to the revision of the Glossary of CDM Terms, with a view to a final version of the Glossary being presented at EB 66 for adoption
